TURNER — HANNES WETTSTEIN 2008

1—
5

Formal moment or relaxing space? Turner, the seating system designed by Hannes Wettstein, combines comfort with refinement. Settees in various sizes, corner pieces, chaises-longue and pouf can be combined together to create different furnishing solutions. Turner responds to varying needs in terms of comfort and posture, thanks to an easy mechanism which adjusts the depth of the seating. Settees in various sizes, corner pieces, chaises-longue and pouf can be combined together to create different furnishing solutions.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013. The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.

DIMENSIONS

End units, central units, chaise longues and islands

Elements **cannot be used individually**.

All elements have back with mechanism.

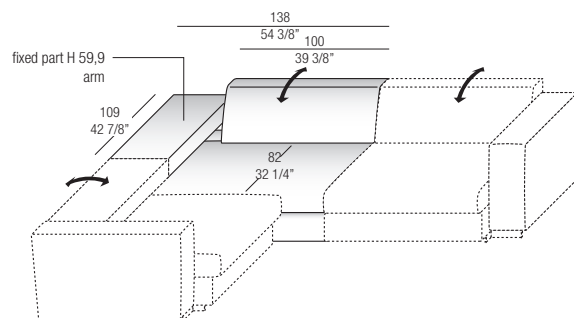

The compositions are always closed at the side with an arm.

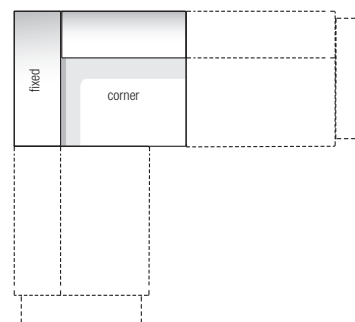

Corner

The corner element **cannot be used alone** but must be placed by a central or terminal element, on the opposite side to the arm.

The corner element comes with mechanism only on the long side.
